Pirie Contracts are a division within the Malcolm Group and are a specialist road surfacing and civil engineering contractor.

Pirie have a strategy which compliments that of the Malcolm group – while working within the industrial, construction, public and private commercial markets we aim to become a contractor of first choice through developing partnership with both our suppliers and clients.

We are also delighted to announce that we have recently met the required quality standard to achieve accreditation to ISO 9001. This quality assurance scheme will allow our performance to be continually reviewed to ensure that we maintain our aim of becoming your supplier of first choice.

“Our experience within the construction industry is wide and varied, working in partnership with high profile and well respected clients delivering a first class service”
